Proudly supporting

A fantastic array of shapes and sizes to suit your home...

## FIR

Our most popular tree, offered in Nordman, Fraser, Noble, Turkish & Korean varieties. Soft needles with excellent retention.

## SPRUCE

The classic traditional tree, offered in these varieties: Norway, Blue, & Serbian. A value tree with medium needle retention.

## PINE

A more unique option, our Lodgepole Pine have long, lush needles & good retention.

Bring your tree back to Stubbings in early January for recycling by our local council

# Garden Centre & Café

OPEN 7 DAYS PER WEEK

9am to 5pm

For each Christmas tree sold, we'll plant one in the Amazon with our chosen charity...

# CHRISTMAS TREE CARE

**PREPARATION** - Make sure you unwrap your tree outside and bang firmly on the ground to remove any debris and loose needles before bringing into your home.

**A FRESH CUT** - Make sure you take a fresh cut off the base of the trunk (at least 1 inch) before bringing the tree indoors. We can cut this for you if required.

**WATER, WATER, WATER** - your tree stand should have a water reservoir. You'll be amazed how much a tree will drink in the first few weeks indoors. Keep watering but note that the tree will drink less and less as the season progresses.

**STANDS** - Alongside the ability to provide sufficient water, you should also check your stand is suitable for the size of tree you wish to buy. Ensuring you have a solid stand is especially important if you have young children and/or pets.

**NEEDLE DROP** - As a fresh product, grown outdoors, trees will inevitably drop needles, the extent of which will depend on many factors.

**AVOID HEAT** - Don't forget that Christmas Trees are grown outdoors. Radiators are their worst enemy, so if possible turn off (or down) any radiators in close proximity to your tree.
